

Our Commitment to Our Donors

ENLACE deeply values and appreciates our donors and partners. ENLACE commits to protecting the names, addresses, and credit card information and of all of our donors and partners. We pledge not to sell, share or trade any personal information from donors or attendees at special events with any another entity without permission of the donor. All personal information received and processed through a third-party service provider is secure and used only for purposes necessary to process the donation. Donors can opt-out of all communications, and mailings are never sent to ENLACE donors on behalf of other organizations.

Thank you!
